

SHETLAND SHEEP SOCIETY – REGISTRATION APPLICATION

NOTES & DECLARATION

1. **Ear tags** are not issued by the Society. Ear tags should meet statutory requirements and be in place before registration, sale and/or transfer. Ear tags must be marked with the breeder's Ministry UK Flock Mark and an individual number, the latter being unique within your flock. Individual numbers may be up to six digits long and should not include alphabetic characters.
2. **Replacement tags.** Lost or worn registered tags should always be replaced, preferably with an identical tag or as required by statute. Any retag involving a number different to that originally recorded must be notified to the Registrations Secretary or the sheep will become de-registered.
3. **Colour and Markings.** *** Only the recognised terms relating to colours & markings, as listed below, may be used anywhere on SSS registration certificates/pedigrees.
The main body colour must always be given followed by the marking/s if relevant. For katmoget & gulmoget marked sheep the colour is taken from the upper part of the body. For patterned sheep the registered colour should be that of the non-white areas e.g. moorit flecket

4. **Recognised colours** (listed from dark to light):-

Blacks Black Shaela/(dark grey) Emsket/(bluish grey) Grey Light Grey White
 Browns Dark Brown Moorit/(reddish brown) Mioget/(yellowish brown) Fawn Musket/(pale greyish brown) White

Recognised markings (the colour should be given in all cases as the main body colour):-

	Gulmoget	Having light underparts with a dark coloured body, white inside the ears and under the jaw ("Mouflon" pattern).
	Katmoget	Having a light coloured body with dark belly and legs, and a moget face. The reverse of gulmoget.
Head:	Krunet	Dark coloured with a white patch on the top of the head.
	Blettet	With white patches on nose and top of head.
	Bleset/Sneedled	Dark coloured with a white stripe/blaze down the forehead.
	Yuglet	Having colour around eyes different from remainder of the body.
	Katmollet	Having light coloured nose and jaws.
	Mullit	White with dark nose and jaws – the reverse of katmollet.
	Smirslet	With white around the mouth, head or neck.
	Moget-faced	Applied to the characteristic face markings of the katmoget pattern on sheep not otherwise displaying that pattern.
	Mirkface	White with dark patches on the face.
	Sholmet	Of any colour, other than white, with a white face.
	Snaelit	Light coloured body with snow-white face.
Neck:	Bielset	Having a circular band of a different colour around the neck.
	Bronget	Dark coloured with light coloured breast, or vice versa.
	Kraiget	Having the neck a different colour from the rest of the body.
	Kranset	Dark coloured with white around eyes and head.
Body:	Iset	Black or shaela with many white fibres, giving a bluish hue from a distance.
	Bersugget	Irregular patches of differing colours.
	Marlit	Various shades of different colours – mottled.
	Brandet	Having stripes of another colour across the body and going over the back.
	Skeget	Stripes of different colours on the sides, not going over the back.
	Bioget	With a white back and darker sides and belly, or vice versa.
	Fronet	Black/brown spotted with white head and black/brown spots around the eyes.
	Ilget	White with spots of a different colour (usually grey or black).
	Blaget	White with irregular dark patches, resembling ground partly snow-covered.
	Flecket	White with large black or brown patches (not as well defined as in Jacob sheep when in full fleece).
	Sponget	Dark coloured with small white spots.
	Sokket	With legs of a different colour to the body.
